

Operational Process

This document is crucial in helping to maintain effective policies and procedures related to Workplace Health Safety and Environment practices.

Abel Services recognises the importance of health and safety management and is committed to ensuring that all of the activities undertaken by our company are carried out with due regard to the prevention of accidents and the protection of the health, safety and welfare of its employees, contractors, visitors and the general public so far as it is reasonably practical to do so.

To ensure that health and safety issues receive the full and timely attention of Abel Services, the director shall nominate a member of the company to take responsibility for the management of health and safety within the company who shall be required to report on health and safety matters on a regular basis.

The Director shall ensure that the nominated individual is aware of this policy and their role in its implementation including:

- A** That the prevention of accidents and the management of the health, safety and welfare of its employees, contractors, visitors and the general public is a priority for Abel Services.
- B** That every member of staff within Abel Services and those working on behalf of that company are required to exercise their personal responsibility, preventing harm to themselves, others and the environment.
- C** That all staff are encouraged to contribute to the continuous improvement of the safety management system and to report issues in a timely and constructive manner.

The Director shall put in place arrangements to ensure that Abel Services are implementing appropriate health and safety management systems and to ensure that the Abel Services safety policy objectives are being fulfilled.

These arrangements shall include the appointment of an experienced Workplace Health & Safety individual who shall provide advice on all aspects of the management of health and safety, and propose changes where required to achieve the safety policy objectives.
